Dear Mrs. Rosenberg

Thank you for your selfless service and participation in the Hanscom Air Force Base Troop Care Drive. Your support made this the most successful care drive to date.

Your donations and hard work resulted in over 1,000 packages sent to service members overseas. These packages reached troops of all military branches in hundreds of locations around the globe. During a difficult time of war, you brought warmth to the hearts of troops recovering in Landstuhl regional medical center and a number of forward operating bases. This boost in morale will help the warfighter carry out their important contribution to our nation's causes.

Deployments are a difficult responsibility for our dedicated service members. Their commitment to freedom is imperative to our distinguished mission throughout the world. As they face numerous challenges far from home, your deliberate benevolence promoted motivation and support.

Our deployed troops received your gracious packages in the midst of the holiday season. Thousands of miles from family and friends, you brought a piece of home to their remote location and made the year culminate in a positive light. I assure you of your encouraging impact and echo their sincere gratitude for this kind act.

Sincerely

THOMAS J. SCHLUCKEBIER
Colonel, USAF
